

## **APPENDIX 1: SPECIFIC COUNTRY/COMMODITY REQUIREMENTS**

### **General requirements**

All consignments of fresh cut flowers/foilage must be accompanied by a phytosanitary certificate attesting that the consignment has been inspected and/or tested in accordance with appropriate official procedures and is considered to be free from quarantine pests specified by the New Zealand Ministry of Agriculture and Forestry. The phytosanitary certificate must also attest that the consignment conforms with the current phytosanitary requirements of the New Zealand Ministry of Agriculture and Forestry.

The following additional declaration to the phytosanitary certificate applies:

**{AD1} This is to certify that the cut flowers/foilage described herein have been inspected and/or tested according to appropriate official procedures and are considered to be free from the quarantine pests specified by New Zealand MAF and to conform with the current phytosanitary requirements of New Zealand MAF, including those for regulated non-quarantine pests.**

Note: If the phytosanitary certificate is in accordance with the model phytosanitary certificate annexed to the revised (1997) text of the FAO IPPC the above additional declaration is not required.

### **Specific requirements**

Where the plant material is propagable (as shown in relevant country:commodity schedules) the material must be subject to an appropriate devitalisation treatment rendering the material non-propagable. The following additional declaration to the phytosanitary certificate will apply.

**{AD2} The [commodity] has been subject to an approved devitalisation treatment rendering it non-propagable.**

Full details of the devitalisation treatment must be included in the “Disinfestation and/or Disinfection Treatment” area of the phytosanitary certificate. Details of the date, active ingredient, concentration, treatment duration and temperature must be recorded.

Refer to specific country:commodity schedule for details of any further additional declarations that may be necessary.

**APPENDIX 1**  
**Specific Requirements: Cut Flowers from Australia**

<i>Scientific Name</i>	<b>Common Name</b>	<b>Propagable</b>	<b>General ADs</b>	<b>Specific ADs</b>
<i>Achillea</i> spp.	bunches of daises	Y	AD1	AD2
<i>Aconitum napellus</i>	wolfs bane	N	AD1	
<b><i>Actinodium cunninghamii</i></b>	<b>swamp daisy</b>	Y	AD1	AD2
<i>Actinotus helianthi</i>	flannel flower	Y	AD1	AD2
<i>Adenanthos obovatus</i>	basket flower	Y	AD1	AD2
<i>Agapanthus africanus</i>	african lily	N	AD1	
<i>Ageratum loustonianum</i>	ageratum	N	AD1	
<i>Aglaonema</i> spp.	Chinese evergreen	Y	AD1	AD2
<i>Agonis flexuosa</i>	willow myrtle	N	AD1	
<i>Allium giganteum</i>	Giant allium	N	AD1	
<i>Alpinia</i> spp.	ginger-lily	N	AD1	
<i>Alstroemeria</i> spp.	alstroemeria	N	AD1	
<i>Amaranthus</i> spp.	amaranth	N	AD1	
<i>Amaryllis</i> spp.	amaryllis	N	AD1	
<i>Ammi majus</i>	Queen Anne's lace	Y	AD1	AD2
<i>Ananas bracteatus</i>	mini pineapple	N	AD1	
<i>Anigozanthos</i> spp.	kangaroo paw	N	AD1	
<i>Anthurium andraeanum</i>	tail flower	N	AD1	
<i>Antirrhinum</i> spp.	snapdragon	N	AD1	
<i>Arachniodes</i> spp.	leather fern	N	AD1	
<i>Asclepia</i> spp.	milkweed	Y	AD1	AD2
<b><i>Astartea fascicularis</i></b>	<b>Fascicularis myrtle</b>	N	AD1	
<b><i>Astartea heteranthera</i></b>	<b>Heteranthera myrtle</b>	N	AD1	
<i>Aster</i> spp.	aster	Y	AD1	AD2
<b><i>Bacckea</i> spp.</b>	<b>camphor myrtle</b>	N	AD1

<i>Nigella damascena</i>	love-in-a-mist	N	AD1	
<i>Nigella orientalis</i>	nigella	N	AD1	
<i>Nymphaea</i> spp.	tropical water lily	N	AD1	
<i>Oncidium</i> spp.	orchids	N	AD1	
<i>Ornithogalum thyrsoides</i>	star-of-Bethlehem	N	AD1	
<i>Paeonia</i> spp.	peony	N	AD1	

## APPENDIX 1

### Specific Requirements: Cut Flowers from Australia

<i>Pandanus</i> spp.	screw pine	N	AD1	
<i>Paphiopedilum</i> spp.	slipper orchid	N	AD1	
<i>Persoonia longifolia</i>	cherry bush	N	AD1	
<i>Persoonia saccata</i>	geebung	N	AD1	
<i>Petrophile</i> spp.	pixie mops	N	AD1	
<i>Phalaenopsis</i> spp.	moth orchid	N	AD1	
<i>Philodendron selloum</i>		N	AD1	
<i>Phoenix</i> spp.	phoenix leaf	N	AD1	
<i>Phylica plumosa</i>	green phylica	Y	AD1	AD2
<i>Physostegia</i> spp.	obedient plant	N	AD1	
<i>Pimelea rosea</i>		Y	AD1	AD2
<i>Polianthes tuberosa</i>	tuberose	N	AD1	
<i>Polyscias</i> spp.		Y	AD1	AD2
<i>Polystichum</i> spp.	fern	N	AD1	
<i>Protea</i> spp.	protea	Y	AD1	AD2
<i>Pteridium esculentum</i>	bracken fern	N	AD1	
<i>Ptilotus exaltatus</i>	mulla mulla	Y	AD1	AD2
<i>Pycnosorus globosus</i>		N	AD1	
<i>Ranunculus</i> spp.	buttercup	N	AD1	
<b>except <i>Ranunculus acris</i></b>			<b>Prohibited</b>	
<i>Restio tetraphyllus</i>		N	AD1	
<i>Rhapis humilis</i>	lady palm	N	AD1	
<i>Rosa</i> spp.	rose	Y	AD1	AD2
<b>except <i>Rosa rubiginosa</i></b>			<b>Prohibited</b>	
<i>Rumohra</i> spp.	heather leaf fern	N	AD1	
<i>Ruscus hypophyllum</i>		N	AD1	
<i>Sabal palmetto</i>	cabbage palmetto	N	AD1	
<i>Sandersonia aurantiaca</i>	Aurantiaca	N	AD1	
<i>Salvia</i> spp.	sage	Y	AD1	AD2
<b>except <i>Salvia reflexa</i></b>			<b>Prohibited</b>	
<i>Sansevieria guinensis</i>		Y	AD1	AD2
<i>Sedum</i> spp.	stone crop	N	AD1	
<b>except <i>Sedum acre</i></b>			<b>Prohibited</b>	
<i>Selaginella noellendaffii</i>	selaginella	Y	AD1	AD2
<i>Selaginella uncinata</i>		Y	AD1	AD2
<i>Serruria</i> spp.	blushing bride	N	AD1	
<i>Solidago</i> spp.	golden rod	N	AD1	

**APPENDIX 1**  
**Specific Requirements: Cut Flowers from Australia**

<i>Solidaster</i> spp.		N	AD1	
<i>Stephanotis floribunda</i>		Y	AD1	AD2
<i>Strelitzia</i> spp.	bird-of-paradise flower	N	AD1	
<i>Tapeinochilus ananassae</i>	torch flower	Y	AD1	AD2
<i>Telopea speciosissima</i>	waratah	Y	AD1	AD2
<i>Templetonia retusa</i>	coral bush	Y	AD1	AD2
<i>Thryptomene</i> spp.	calyoina	Y	AD1	AD2
<i>Trachelium caeruleum</i>	blue throatwort	Y	AD1	AD2
<i>Triteleia laxa</i>		N	AD1	
<i>Tulipa</i> spp.	tulip	N	AD1	
<i>Typha</i> spp.	cattails/bulrush	N	AD1	
<i>Vallota speciosa</i>	Scarborough lily	N	AD1	
<i>Vanda</i> spp.	orchids	N	AD1	
<i>Verticordia acerosa</i>	<b>feather flower</b>	Y	AD1	AD2
<i>Verticordia browneii</i>		Y	AD1	AD2
<i>Verticordia chrysantha</i>		Y	AD1	AD2
<i>Verticordia densiflora</i>		Y	AD1	AD2
<i>Verticordia eriocephala</i>		Y	AD1	AD2
<i>Verticordia grandiflora</i>	<b>claw feather flower</b>	Y	AD1	AD2
<i>Verticordia grandis</i>	<b>scarlet feather flower</b>	Y	AD1	AD2
<i>Verticordia mitchelliana</i>	<b>rapier feather flower</b>	Y	AD1	AD2
<i>Verticordia monadelphica</i>	<b>woolly feather flower</b>	Y	AD1	AD2
<i>Verticordia nitens</i>		Y	AD1	AD2
<i>Verticordia oculata</i>	<b>murchison feather flower</b>	Y	AD1	AD2
<i>Verticordia picta</i>	<b>painted feather flower</b>	Y	AD1	AD2
<i>Verticordia plumosa</i>	<b>plumed feather flower</b>	Y	AD1	AD2
<i>Verticordia pritzelii</i>	pritzel's feather flower	Y	AD1	AD2
<i>Verticordia roei</i>	<b>roe's feather flower</b>	Y	AD1	AD2
<i>Verticordia serrata</i>	<b>saw feather flower</b>	Y	AD1	AD2
<i>Xanthorrea australis</i>	steel grass	N	AD1	
<i>Xanthorrea preissii</i>	blackboy spears	N	AD1	
<i>Xerophyllum tenax</i>	bear grass	N	AD1	

## APPENDIX 1

### Specific Requirements: Cut Flowers from Australia

<i>Xylomelum angustifolium</i>	maliee pear	N	AD1	
<i>Xylomelum occidentale</i>	western woody pear	N	AD1	
<i>Zamia flordana</i>	seminole-bread	N	AD1	
<i>Zantedeschia</i> spp.	calla lily	N	AD1	
<i>Zingiber</i> spp.	ginger flower	N	AD1	

#### Notes:

1. Species listed in bold font and shaded grey:

**Cut flowers and foliage of the Myrtaceae family** is considered to be host material for Myrtle Rust (*Uredo rangelii*) in the state of New South Wales – Australia, where the fungus has been detected. All imports of this host material from this state are now prohibited into New Zealand due to the risk of transmission.

**APPENDIX 1**  
**Specific Requirements: Cut Flowers from Canada**

<b>Scientific Name</b>	<b>Common Name</b>	<b>Propagable</b>	<b>General ADs</b>	<b>Specific ADs</b>

<i>Phoenix</i> spp.	phoenix leaf	N	AD1	
<i>Pleomele reflexa</i>		U	AD1	
<i>Polystichum</i> spp.	fern	Y	AD1	AD2
<i>Rhapis humilis</i>	lady palm	N	AD1	<b>Note 3</b>
<i>Rhapis</i> spp.		U	AD1	
<i>Rosa</i> spp.	rose	Y	AD1	AD2
<i>Rumohra</i> spp.	heather leaf fern	N	AD1	
<i>Solidago</i> spp.	golden rod	N	AD1	
<i>Solidaster</i> spp.		N	AD1	
<i>Tapeinochilus</i> spp.	torch flower	Y	AD1	AD2
<i>Trachelium</i> spp.		Y	AD1	AD2
<i>Vallota</i>		U	AD1	
<i>Vanda</i> spp.	orchids	N	AD1	
<i>Verticordia chrysantha</i>		Y	AD1	AD2
<i>Zantedeschia</i> spp.	calla lily	N	AD1	
<i>Zingiber</i> spp.	ginger flower	N	AD1	

**Notes :**

1. Species listed in bold font and shaded grey:

**Unaccompanied Consignments from Malaysia and Singapore** must be treated on arrival prior to inspection. Only Methyl Bromide treatment is permitted. The rate to be used is that prescribed in Approved Biosecurity Treatments for Risk Goods Directed for Treatment BNZ-STD-ABTRT for treatment of insects (FVT1). Treatment must be completed within the metropolitan area and within 24 hours of arrival. Once a compliant treatment certificate is received the goods will be directed for inspection.

**Unaccompanied consignments from Thailand – treatment pre-arrival**  
Unaccompanied consignments from Thailand must be pre-arrival treated with Methyl Bromide only with appropriate endorsement on phytosanitary

certificate. The rate to be used is that prescribed in Approved Biosecurity Treatments for Risk Goods Directed for Treatment BNZ-STD-ABTRT for treatment of insects (FVT1).

2. Accompanied **orchids** from **Singapore** Airport Duty Free do not require a standard Phytosanitary Certificate. A phytosanitary 'tag' sticker is attached to the carton. The sticker is numbered and issued by the Singapore Agri-Food and Veterinary Authority (AVA). Accompanied orchids do not require the on-arrival treatment (note 1) but must be declared will be 100% inspected on-arrival.
3. **Chrysalidocarpus and Rhapsis**. If a fungicide treatment is applied the Malaysia and Singapore phytosanitary certificate must be endorsed with

"The *Rhapsis/Chrysalidocarpus* foliage in this consignment has been treated using an approved fungicide treatment"

**APPENDIX 1**  
**Specific Requirements: Cut Flowers from U.S.A.**

Scientific Name	Common Name	Propagable	General ADs	Specific ADs
